

## Loss Control Risk Assessor – Electrician

By joining the Team at **KENT & ESSEX MUTUAL INSURANCE** your career is headed in the right direction! As part of our Loss Prevention Program our dedicated team will conduct inspections and provide recommendations to our policyholders for their residential, farm or commercial properties. A key responsibility is for our inspectors to suggest improvements to existing equipment, maintenance practices and procedures to help prevent losses before they occur.

### The Role:

This is a new role as we are seeking a passionate and qualified, licensed Electrician to join our Loss Control Team. Your role will be working independently and as a team to complete loss control risk assessments of residential, farm and commercial policyholder properties. The role does require the individual to be a licensed electrician.

As the successful candidate, you will:

- Perform detailed risk assessments of policyholder properties, considering the fire code, building code, electrical code or any other codes or standards that may apply
- Use thermal imaging technology to assess the condition of the electrical and mechanical systems
- Review the site for potential environmental concerns
- Assist in responding to risk management or loss control questions from managers, underwriters, policyholders or brokers
- Prepare and deliver risk management training to other employees or our broker partners
- Continually keep current of new standards and codes, or new construction methods for farm buildings, commercial buildings, and residential properties.

### Qualifications and Skills:

- Licensed Electrician - required
- Experience performing Risk Management Assessments or Loss Control Assessments of farm, commercial and residential properties
- Thorough knowledge of agribusiness, farming and commercial operations and their related environmental issues
- Thorough knowledge of farm and commercial construction practices
- Must have a working knowledge of the National Building Code, the Ontario Electrical Code, and the Ontario Fire Code
- Proficient with Microsoft Office and excellent computer skills are mandatory
- Possess a valid Ontario Driver's License (G-class) and access to a vehicle on a daily basis
- Proven ability to work independently and to organize workload and schedule
- Must work cooperatively, positively and in a professional manner with others to facilitate an effective team environment
- Work in accordance with organizational and departmental expectations
- Adhering to health and safety requirements by working in a safe and organized manner
- Excellent interpersonal, problem solving, report writing, and analytical skills are mandatory
- Knowledge of thermal imaging cameras would be an asset

## About Us:
