

# 50% Rebate

We will pay 50% of the expenses (up to \$1,000) for the installation of an automatic backup generator, water leak detector, automatic shut-off valve, main sewer backwater valve or backup sump pump.

- The rebate can be applied to multiple locations owned by the same policyholder, up to a maximum of \$2,000.
- This program does not reimburse the costs associated with the replacement of the original sump pump.
- You must be an existing policyholder and have the Water Protection Endorsement to qualify for this program.
- This program cannot be used in conjunction with the Loss Mitigation Expense Coverage available with the Water Protection Endorsement.

Must Be Professionally Installed	Should Be Professionally Installed
