

50% Rebate

We will pay 50% of the expense (up to \$1,000) for the installation of an automatic backup generator, water leak detector, automatic shut-off valve, main sewer backwater valve or backup sump pump.

- You must be an existing policyholder and have the Water Protection Endorsement or Sewer, Septic Tank, Floor Drain or Sump Backup Coverage to qualify for this program.
- Rebates apply to owned, permanently installed units only. Portable, temporary, rented, or leased units are not eligible.
- The rebate can be applied to multiple locations owned by the same policyholder, up to the maximum of \$2,000.
- This program cannot be used in conjunction with the Loss Mitigation Expense Coverage available with the Water Protection Endorsement.
- This program does not reimburse the costs associated with the replacement of the original sump pump.

Must be Professionally Installed	Should Be Professionally Installed
• Permanently installed automatic backup generator • Main Sewer backwater value • Automatic water shut-off valve	• Battery-powered backup sump pump • Water-powered backup sump pump • Water leak detection device

Kent & Essex Mutual Insurance Company (K&E) reserves the right to inspect installation of new systems. The device must have been installed within one calendar year of the rebate request submission. Eligibility for this program is limited to once in any five-year period.

HOW TO APPLY

1. Provide a copy of the purchase receipt showing the policyholder purchased the qualifying unit, along with any installation invoice or receipt.
2. Make a copy of the first page of the unit's instruction manual.
3. Snap a photo of the installed unit.
4. Include your policy number.
5. Send completed information to either:
 - Your Broker, or
 - By Email to K&E: losscontrol@kemutual.com, or
 - By Scanning the QR Code & Completing the Form
